ABOUT US

ASAS CASA was born from a spark of creativity in the eyes of two ambitious Qatari engineers, Engineer Abdullah Saleh Al-Ashqar and Engineer Ali Khalil Haji. Returning to their homeland after graduating from the prestigious United Kingdom University, they carried a dream that illuminated their eyes—a dream to contribute to the progress of their country. From the heart of beloved Qatar, the desire to create designs that blend luxury and precision ignited, marking the beginning of the Asas Casa journey, which transcended the boundaries of interior design and luxury décor, achieving remarkable milestones within and beyond Qatar.

The company wasn't just a commercial endeavor; it was a journey fueled by passion, led by engineers aspiring for the best. Within a few years, the company firmly established its name, completing over 300 projects within and outside Qatar with unmatched creativity and dedication. As a complement to this legacy, the engineers launched their own line of luxurious furniture and décor, adding further elegance and distinction. Today, engineers strive to solidify their position as pioneers in the field of design. Their story isn't just a successful endeavor; it's a lasting legacy of Qatari authenticity, creativity, and passion.
